## **SUMMARY OF INTERVIEW**

### Identification of Claims Discussed

All of the pending claims were discussed.

### Identification of Prior Art Discussed

The references Rouy et al. and Eggerman et al. were discussed.

### Proposed Amendments

Amending the claims to recite fully complementary or 20 nucleobase antisense compounds was discussed.

### Principal Arguments and Other Matters

Applicants maintained that the general statements regarding antisense in Rouy et al. in combination with the other cited art did not lead a skilled artisan to oligonucleotides with the all of the features recited in the claims.

### Results of Interview

No agreement was reached.
